**Airport logistics (complete for each major airport)**

Airport name:  Date visited:

Airport URL:

**Airport features (photograph all important items)**

- Does the airport have multiple levels? Yes      No
- If yes, does the airport have elevators **in working order**? Yes      No
- Does the airport have modern amenities like air conditioning? Yes      No
- Do passengers board the airplane by jetbridge (directly from the terminal)? Yes      No
- If no, do passengers board the airplane via stairs on the tarmac? Yes      No

How many terminals are in the airport?  Find out if all have same features (often they are built at different times, so one terminal may be more accessible than another). If they are significantly different, see if you can document everything below for each terminal.

Standard restroom accessible features:

- Larger, accessible stall? Yes      No
- If it has an accessible stall, are there "grab bars" mounted on the wall? Yes      No
- Other restroom features:

Does the terminal have one or more family/companion restrooms (a private restroom where an assistant can help an individual use the toilet)? Yes      No

Does the airline offer assistance boarding (ask the personnel working the counter for a flight the following):

- Do you have personnel that can assist with on and off boarding? Yes      No
- Do you have an "aisle chair" available for on and off boarding for individuals that use wheelchairs and cannot walk? Yes      No
